### ***Reviews***

*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

Excerpt: . . . in the subject phase of the judgmental, or tensional situation, in which reality assumes existential expression. If experience is interpreted, not in the subjective sense of the registration in the individual of an external environment, but is construed rather as envelopmental, i. e. , as embracing within the unity of its process the opposition of object and idea, then reality and experience are interchangeable terms. There is, however, a significant difference between this interpretation of experience, and experience conceived as my experience, and your experience. (Cf. chapters following and especially chap. V. ) I . . . moment when reality, through its inner strife and tension, is precipitated into an obstacle or object resisting immediate control, the idea, locating the disturbance, reviewing, surveying the situation in which the difficulty arose---in order to select and determine the materials and conditions within which reorganization can take place--reflects a more or less definitely organized content, and seems to stand over against a world of completely given externality. Seizing the idea at this, its moment of widest differentiation from external reality, the psychologist has stopped its further function of healing the breach and initiating the new condition in which both idea and object shall be annulled as existences. The psychologists purpose preserves the dualism; the reality which the idea reflects is taken as completely determined and external. The outer world is not indeed sensuous stuff for thought to fashion into thinghood; it is already there. The image in its pristine...
