Reviews

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

CDBG Formula Targeting to Community Development Need 70 Alternative 1 Per Capita Grant 60 Needs Index Per Capita Grant (slope 12. 0) Grant 50 40 Capita 30 Per 20 10 0 Low Need High Need Entitlement Grantees Chart ES-3. Alternative 1. Targeting to Need Nonentitlement Alternative 1 likewise tweaks the existing formula by fixing the problems in Formulas A and B that lead to large inequities in funding among grantees within each individual formula. This alternative undertakes the following changes: Formula A o Reduce the weight on population from 25 percent to 10 percent and increase the weight on poverty to 65 percent. This change increases the funding for the more needy Formula A grantees while decreasing funding for the less needy as measured by the needs index. o Change the definition of poverty to persons living in family households or elderly headed households living in poverty to correct for the relative overfunding of states with significant college student populations in the nonentitlement areas. Formula B o Replace the pre-1940 variable with housing 50 years or older occupied by a poverty household to better target to states with older infrastructure and dilapidated housing. o Change the definition of poverty to persons living in family households or elderly headed households living in poverty to correct for the relative overfunding of states with large college student populations in the nonentitlement areas. o Reduce the weight on population from 20 percent to 10 percent and increase the weight on poverty to 40 percent. As with...
