Book Condition: New. Publisher/Verlag: Springer Netherlands | Over the 1980s unions have lost about 5 million members in OECD countries. The proportion of unionized workers is increasing in the services, public sector and among women. Today, almost two out of five union members are employed in the public sector. Wide differences remain in the levels of unionization in diverse countries, while in the United States, France and Spain union members account now for little more than 10% of the labour force, in the Nordic countries (Sweden, Finland and Denmark) the corresponding figure is between 75 and 85%. In general, rates have been higher in Europe than in North America. Economic analysis is paying increasing attention to these developments and to their policy implications (Edwards, Caronna and Todling, OCDE 1991). Union...
