## INVOLUTION-AN ODYSSEY RECONCILING SCIENCE TO GOD

CollaborArtbooks. Paperback. Book Condition: New. Paperback. 444 pages. Dimensions: 9.0in. x 6.0in. x 1.2in. Involution- An Odyssey Reconciling Science to God. This book has been called . . . a brilliant and profoundly erudite epic. . . a heroic intellectual tour de force. . . (by David Lorimer, the Director of the Scientific and Medical Network) and both brave. . . and totally insightful (by Ervin Laszlo) but the book defies description; it breaks all the rules and is unlike any other. It is so comprehensive in its sweep, original in its writing, and its synthesis, that to isolate any aspect is to misrepresent all the others. Two companions, Reason and Soul, invite the reader to accompany them on a light-hearted poetic journey through the chronology of Western thought to uncover a bold hypothesis: that the evolution of science has been shaped by its gradual and accelerating recovery of memory (involution). That recovery has been led by the inspired maverick genius, moving backwards through time (usually called the past), but which has provided sciences future at every moment of new creative thought. Scientific inspiration and its chronology mirrors evolution. This incremental excavation and transfer of memory to intellect implies the pre-human encoding (involution) of consciousness in the structure of matter, and the interconnected consciousness of all life. DNA is the likely encoding and mediating molecule, or resonant coherence of this information, through both time and space. The sweep of history is needed to expose this proposal and its evidence: It requires all the disciplines of science, all the epochs of thought: which only a poetic economy woven together with extraordinary subtlety (Lorimer) could convey. Yet, paradoxically, through involution the collective journey has been lit by individuals, unique in their subjective contributions to the discipline that claims only objective validated truth. The...
