Reviews

Very good e book and useful one. Better then never, though i am quite late in start reading this one. I am just quickly could possibly get a pleasure of reading through a published ebook.
(Laron Cartwright)

CYBER 24-7: RISKS, LEADERSHIP, SHARING: SOUND ADVICE FOR THE BOARD, C-SUITE, AND NON-TECHNICAL EXECUTIVES

CreateSpace Independent Publishing Platform, 2014. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Cyber security is on everyone's mind; the headlines have been screaming the news about Target and other retail breaches in the last few weeks of 2013. Organizations of all sizes are feeling the pressure to do more, but what to do?This book examines the risks in the current and future realm of cyber-attacks, the leadership elements necessary to mobilize the entire organization and high payoff activities like information sharing that can help you be more prepared and proactive.The content is aimed specifically at board of directors, C-Suite executives, and non-technical managers. Chief Information Officers and Chief Information Security Officers will benefit from increased awareness of the organization, and IT staffers will understand a wider scope of the issues around preparing and defending an organization's prized information. Explanations should be understandable without a deep technical background.We will examine the "people" issues of a strong cyber defense; assembling the right talent pool, and organizing them to be more effective in activities that will protect the organization from a wide range of potential harm inflictors - nation states, cyber criminals, and teenagers with talent and time on their hands. I will answer some pressing questions that have come up at a number of presentations with senior leadership from many different organizations:* How big is this risk? Can I handle it with my other organizational liabilities?* How did we get into this situation?* What can the board do to oversee our cyber efforts?* What should senior management do on a daily basis to help prevent attacks/breaches?* How should my internal team be configured and allocated? * Who should I turn to for outside help?* What can I do proactively to prevent attacks and respond better when...
